Total	1,501,794	\$361,754,462,019

* 2012 statistics are as of 03.12.2012

^ No HRA PRM or CLA policies were assumed from 2003 through 2007.

The number of policies represented are derived from the initial assumption.

By reducing Citizens exposure through the depopulation process, losses that would have paid out of available surplus or translated into assessments are absorbed by the private market.
