

This is an email from a Public Adjuster in response to my request for his opinion on the allegations of a Trial Attorney regarding "Global Settlements" and how they overcompensate PA's. This is part of a blog Titled "Collapse of an Evil Empire Part II." July 2020.

Scott

Your anonymous source is 100% correct. There are litigation firms doing that and also recruiting new young people , training them , supporting them until they obtain a PA License then the new PA start knocking on doors to get new claims , frivolous claims. But, it doesn't matter to them since every claim ends in the hands of the Litigation God who trained him or her.

These Litigation Offices are acting as "Chicken Grower Farms " , the new PA'S bring the Eggs  every month.

When the BOX is fully loaded, the Carriers and the Attorney goes to the Global Settlement Party in which the Poor Insured is absolutely destroyed.

The Legion of Door knockers is Now in Tally looking for new Horizons far from Miami. They have a few more days for Irma and almost a year for Michael.

In the meantime every time a new Victim opens the Door to "get help" with a Hurricane Irma claim , they inspect the entire property and always find a new water damage claim then the " sister Dryout and mold mitigation " company jumps into the party.

Look on the websites of the Big Volume Litigation Firms and look at them driving Rolls Royce's Private Jets Millions of Dollars Boats , etc.

That's the inspiration of new PA's trained by EVIL.
