

The insurance industry is backing another bill that is trying to take away your rights and significantly reduce your coverage for roof damage. If passed, [Senate Bill 76](#) could potentially cost Floridian homeowners millions of dollars. We need homeowners and business owners in **Tallahassee on Tuesday, February 2nd** to be heard and oppose this bill.

Here are some highlights of the bill:

- Insurance companies can limit coverage for roofs more than 10 years old based on a “roof reimbursement schedule.” This could result in significant out of pocket expenses for homeowners.
- The roof reimbursement schedule limits coverage to a percentage of the amount to repair or replace the roof.
- Coverage can be limited to:
  - 70% for metal roofs
  - 40% for concrete tile and clay tile roofs
  - 40% for wood shake and wood shingle roofs
  - 25% for all other roof types, including asphalt shingle roofs
- Timeframe to report property damage claims, including Hurricanes, is reduced to 2 years!
- Policyholders must send their insurer a Notice of Intent to file a lawsuit prior suing for recovery of insurance proceeds.
- Notice of Intent must include: the amount of damages sought, a detailed estimate for repairs, the actions of the insurer that gave rise to the action, and the amount of attorney’s fees incurred by the insured policyholder.
- Notice of Intent must be served at least 60 days before filing a lawsuit. Given the 90 day period insurers already have to adjust claims, adding 60 days means

generally waiting 5 months from the date the claim was reported before being able to sue for failure to adequately pay the claim.

- Limits policyholders' ability to recover attorney's fees in a lawsuit against their insurer, a right that has been guaranteed under Florida law for decades.
